PLAIN QUESTIONS TO NORWAY PEOPLE

Every Norway Reader Will Admit the Soundness of the Logic

Would Norway people recommend Doan's Kidney Pills as they do if the medicine were not reliable? Would they confirm their statements after years have elapsed if their experiences did not show the remedy to be deserving of it? Statements like the following must carry conviction to the mind of every reader:

C. E. Bradford, prop. of the laundry, Main St., Norway, says: "For some time I had a dull pain through the small of my back, together with a tired feeling. I couldn't rest well. When a friend advised me to take Doan's Kidney Pills I got a supply at F. P. Stone's Drug Store. After I used two boxes, the pains and other symptoms disappeared and there was a great improvement in every way. I have had no kidney trouble since." (Statement given April 30, 1912.)

On June 6, 1916 Mr. Bradford added: "I still have confidence in Doan's Kidney Pills as it hasn't been necessary for me to use a kidney medicine since I took them."

A VISIT IN THE HALLS

Affairs in the Oxford County Agricultural hall went with a vim, a rush and a thoroughness that show masters and mistresses of the situation. At the opening hour Tuesday morning fall was ready for business. A fair to be enjoyable must be in an agricultural place among agricultural people.

Six granges this year and each one an indoor display fair in itself. Four of them were the same quality. The decorations of Norway, Paris, Hebron and Frederick Robie were green and white. The Pleasant Pond of Summer chose white with old glory hunting. Stands of flags showed the war and patriotic spirit. West Paris grange was the sixth.

Oxford County is acknowledged to be in the apple belt. Without doubt the agricultural hall display was the very center or heart of the belt. It may be one of the off years for apples and fruit, but the apples show that Prof. Yost's labor on apple instruction in Oxford Co. has been all right. A better looking lot of apples and fruit it would be hard to get together. Fruits were arranged as they should be to bring out their best points and labeled. Each division had a large lettered placard so that the ignorant one seeking knowledge would know that a Sweet Bough was a Sweet Bough and an Early Strawberry was true to name. Ditto the Baldwin and Early Transparent.

Last year's new addition to the hall is a big improvement and we who have been accustomed to the former more confined space feel "quite satisfied."

Freeland Howe of Norway has a "Music Store" they read the features the Victor Records and music were attractive with the passing multitude.

Quilts waved in the overhead space and most of them were made of an almost endless number of pieces and there were as many designs as quilts. Some were knitted. Surely the Red Cross has not claimed all the knitting in this section, but perhaps they were made "B'fore the war."

All progressive business have new features and the placards giving the number of the exhibit and the name and kind was a long step ahead.

Irving Wheeler of South Paris, a lame boy had specimens of his handiwork—a bird's house, and doll's household furniture.

"The children have done well," was the universal expressed opinion. They have a space all their own under "No. 31 work of children under 16." George Washington was a favorite for partout.

Painting and drawing never surpassed this year's showing. Helen Thomas Pratt of Norway had fifteen pictures, crayons. Gertrude Cushman, South Paris, ten pencil drawings; Susie Bradbury, Norway, water colors. M. S. True, Hebron, oil paintings of still life, landscape, fish and a portrait of a young girl; Mrs. Harold Pratt of South Paris had fifteen charcoal, crayon and water color pictures.

Mrs. A. D. Park had a large and fine lot of oil paintings; Mrs. A. F. Goulding and Helen Wear, South Paris, had paintings. Mrs. E. L. Packard Norway, had a collection of hand painted China. Among the drawn, the knit and the braided rugs was the new cross stitch by Mrs. Huldah Perkins of South Paris.

"Post no bills," look out for pickpockets," framed in green and red fringed paper held the eye. The superintendent's door was framed in like manner. Doubtless official.

Traces of yellow corn as well as the sweet gave evidence of returning season to the eastern farmer. There was corn as fine as the finest though the season was late.

The Portland Express and Advertiser had comfortable chairs in their rest-room in which the weary could sit and visit. Longley & Butts, Norway, had a bath room with all modern fixings in white with silver trimmings. Many a warm and bestained fair attendant would have liked to have made a practical test. Atherton showed they could make a handsome showing of just coal black, but shining Greenwood stoves. They made a similar display at the State fair.

Every kind of a use to which a stove could be put was on exhibition.

E. C. & C. M. Meritt of South Paris had their automobile snow attachment. They had it on an automobile and demonstrated the working of it. It looked as though a car might be run with it through our deep snows.

The dairy products looked they were made on scientific principles. The butter, both dairy and factory, had that yellow, light grained almost duffy, appetizing look that stamps it a delight to the palate. Domestic cheese! Eight by actual count.

The vegetables were so large, were polished so finely, were so proud of their exalted service to the conquering armies of the earth that some of them actually bore aloft the flag of their country. There was every kind of fresh state, but in the canned. Right here in this hall it appeared there has been a great advancement in canning by the "cold-pack method" as taught by the United States Department of Agriculture. The canned goods look better than they taste a thousand times better. We note 35 cans of fruit and vegetables by Adeline DeCoster of Norway, and near by a larger collection by Marion Cummings of Hebron and Mrs. J. P. Cummings of Norway, show they have made a study and practice of this most useful art. Next to the canned come dried products. Celery bleached to perfection and an endless variety of squashes and pumpkins. The lovely potato for once has "come into its own."

The rainbow corn from the Wm. N. Judkins' Elm Hill Fruit Farm was handsome as a flower in the tints of the rainbow.

Furniture from the F. A. Thayer store, South Paris, pianos and sheet music from Cressey & Allen of Portland. South Paris Division of the Service League had in front of their booth a placard "Please help us by yarn" and put a slot for glass globe in which to put contributions. The silver in the globe gave evidence that many had responded. All kinds of knitted goods for the season were shown and explained. The names of donors were on the knitted articles they had given.

The University of Maine Farm Demonstration Station illustrated by natural means and by pictures, apple diseases, pruning and repairing trees. Also the plan for a hog feeder.

The DeLaval Cream Separator, the Sharpless Suction feed separator, W. K.

Clifford, South Paris, and the U. S. Cream Separator were all in working order and farmers and farmers' wives and others interested looked them over.

Crown gall and hairy root were the subjects treated from the Department of Agriculture of Maine. The roots were there in their diseased condition. The demonstrator is thinking of adding normal roots to his collection at the Waterville fair. He was giving out literature on the most injurious insect pests and fungous diseases in this section.

"Jersey Cattle Headquarters" gave some of the good points of the Jersey cow in America and the good quality of Jersey milk. This is in the interest of the Oxford County Association. Mrs. Hortense Gregg Gates was in charge of the distribution of the printed matter.

The Farmer's Mount Madison Spring Beverages Co. of Gorham, N. H. served drinks. Their space surely looked as much like a bar as Maine is supposed to see, but the drinks were said to be harmless.

From Fletcher's Home Made Candy Store, Norway, there was a good supply. Ice cream and other palatable delicacies were served.

W. J. Wheeler & Co. pianos, player-pianos, organs, from the South Paris store gave out fine music by the skillful demonstrators.

Mrs. Howard Shaw and Mrs. Charles Bowker of South Paris had a lunch counter. With the aid of oil stoves they were enabled to serve hot foods and hot drinks. Ice cream and other ice cold goodies were also served.

R. P. Skeggs had Indian craft articles, among which were quantities of sweet grass baskets. F. R. Robinson of Sabattus, hand-made jewelry. Another stand sold Palm Beach jewelry novelties. Mamm Ray, palmist, told everything any reasonable person should know.

Among the nice and desirable articles was the case of Maine gems from Robert F. Bickford's store and lapidary, Norway. Knox Bickford was in charge.

The millinery booths gave the early fall styles in headwear. These were Mrs. A. L. Freeborn, North Bridgton, Mrs. Carrie Smith, Oxford and Mrs. F. S. Farnum, West Paris. They each and all said they were having an unusually good trade. A. B. Cartney of Lewiston, embroiderer.

The general fancy display department was under the direction of Mattie Richards of South Paris and Jennie Richards of Norway. It was large and well arranged and of high quality of work.

Mrs. George Robinson, South Paris, is exhibiting burnt work and Mrs. Charles Allen of Norway a collection of passepartout.

Six granges were in the upper hall. In the Norway Grange those directed by Mrs. George Robinson, Mr. and Mrs. Geo. Richardson, Mr. and Mrs. Grant Abbott, Mrs. Solomon Jackson, Mrs. Foster Jackson and Mrs. Arthur Buck and the Nellie Dunham. The baby grange of Maine was the Pleasant Pond of West Paris, organized less than one year ago and made its first exhibit. The committee here was made up of Mr. and Mrs. James Boyle, Mrs. Esther Ryerson, Elsie Barrows, Lillie Pulsifer, Bertha Swift and Sidney Brown, master of the grange and chairman of the committee.

Frederick Robie Grange of Oisfield was headed by Eva Annis as chairman and for assistants she has Mrs. Mattie Ordway, Mrs. Lucia York, Mrs. Isola A. Stearns and Geo. E. Durrell. The Paris Grange had for its committee Mr. and Mrs. Frank Dudley, Minnie Edwards and Mr. and Mrs. Winslow Thayer. West Paris Grange had Mr. and Mrs. D. A. Grover, Mr. and Mrs. Chas. Stevens and the general committee.

Frederick Robie Grange had a beautiful sign, a combination of tinsel and cedar, the cedar being used throughout for decoration. Fine point lace yokes, centerpieces and other lace were emphasized by their being placed over green paper. Potted plants and cut flowers were used in the decorations. A call from "ye olden time" comes from the big bunch of apples dried on strings. 25 varieties of dried beans make quite a showing. The display of grains and grasses from this grange were unusual. Their exhibit of fancy work was large and included quite a little colored embroidery in center pieces and scarfs. A place for exquisite hand made brand of handkerchiefs was marked as 100 years old. The food case was lavishly filled.

Attractive indeed was the section where Norway Grange exhibited, all in white and lacy green hemlock with sheaves of grain used effectively here and there. The fancy work displayed over green paper showed up especially well. The display of asters, sweet peas, phlox and other flowers was beautiful. A fine lot of potatoes was included in the vegetable exhibit. A large number of plates of apples and a lot of plums were among the fruits. The color scheme came in well again in the dairy display, the top shelf having just milk, cream and Dutch cheese with cool looking bits of butter. A background of hemlock showed up well. Something unusual was an orange tree with two oranges on it. This grange had a large exhibit of canned fruits and cookies.

In Pleasant Pond Grange many were interested in the mounted fox and deer head. A good variety of pumpkins and squashes, large turnips and other vegetables were exhibited. The fruit was attractively arranged on either side and the bearing the name of the grange and the symbols, a sheaf of wheat and a sickle done in colors.

Hebron grange had heavy borders of chestnut leaves. Red shell beans were used in making their sign. Underneath was a miniature wheel, the rim and 19 spokes being of different kinds of beans. Either end of the booth was devoted to vegetables and fruits, both of which occupy considerable space. There shell, string and dried beans make an array along with cabbages. On one squash shown by Dwight Cushman was a clever design of the flag. The food was certainly appetizing and a credit to the cooks. The floral display was large. A begonia exhibited by Mrs. Rose Stone was especially worthy of notice.

THE BABIES

Baby carriages pushed near the entrance to hold the baby show was in progress—a popular feature of the fair. Tuesday at 2 o'clock a look in the babies' show room gave as handsome a sight as was ever seen at this annual gathering together of babies.

UP AND DOWN THE MIDWAY
The midway is to a fair ground what sweet stuff is to a small child, a necessity and yet a luxury, for who ever saw a fair without its midway or could attend a fair without really spending a little more than he intended simply on account of the call of the midway?

It is this metropolis of the fair ground that calls the country boy to gaze in wonder and the city lad to strut in splendor. Here too, one finds a convenient hunting ground for friends and relatives. Only too often does the small boy spend his dollar early in the day and spend the remaining part up and down the midway in quest of some relative and an extra quarter of a dollar, for rarely there is something left which he has not seen.

Here the hoarse voices of the fakirs calling out their wares and attractions make a babble of voices that is strangely alluring and bewildering.

There were vendors of rain coats, sweaters, balloons, whips, flags, fruit, frankfurts, ice cream and cold drinks, not to mention numerous souvenirs of this special occasion.

There was Zisco, the Wild Monkey Girl, born as a bear and wild as a wolf, right from Ziscolia, that strange land of wild men and women, with a ring in her nose and kept docile by the use of a pitchfork wielded by her keeper. Zisco, the real-life wild monkey girl uttered strange gurgles as she fondly fed her pet

monkey peanuts and other delectables, while beside her on the ground reposed the mummified body of a two-headed monkey child.

Did you see him? Baby Jim. Some baby. This colored gentleman from the southland. Actually alive and weighing 793 pounds. One of his shirts displayed to the public out front on a wire was a good week's washing.

Madame Johnson, the Gipsy Queen, read your palm and told your future. There were plenty of games of skill such as ten pins, bowling, hitting the dodger, sliding the clown into the tank of water or pitching balls into buckets or making the mechanical mule kick or spearing a tag, for all kinds of prizes ranging from cigars, candy and jewelry to real money.

Something brand new, a candy race track. Winchester horses gallop around a race track as a handle is turned and you bet on the winning horse for a box of candy. Sometimes you get one and sometimes you don't.

That freak of nature, an eight legged pig having two bodies, one male and one female, eight legs and on head, born in Lewiston and raised by J. B. Courrier. This oddity lived only about three hours and was killed when bitten in the head by its mother.

The wild bear right from the wildwood terrified the small folks by his loud grunts and growls.

A live animal and freak stuffed animal show proved an attraction. The live ones were bears, monkeys, snakes and wolves. The freak animals were a calf with a head like a bull dog and feet like a hog, born in Oxford, Maine. A colt with only two legs behind, full grown and one side in front smooth with no leg at all with only a deformed and dried up leg or beginning of one on the other.

"Tintype men took your picture for ten cents if you were satisfied with the picture they took, if not satisfied it cost you nothing."

A blind beggar played a mouth harp and harpsicord, sometimes singing, while people dropped nickels and dimes into a slot in a can attached to his shoulder.

The silk stocking girls on the beach by the ocean waited for you to throw a hoop over their legs and get a pair of silk stockings or a pillow top.

Talbot Mundy and Freeland Howe erected a rest tent on behalf of the Christian Science Association where the weary eighteen found a welcome seat with shade and rest.

EATING HOUSE ROW

No matter how great the excitement or how many the attractions one finds at the fair, be it the visitor, the man at home, from the city or country, he always turns from such pursuits of excitement as the noon hour draws near and invariably finds himself waiting his turn at one of the eating houses along Eating House Row. Here, in the delights of the culinary supremacy of the women of Oxford County, he forgets, for the time being, the attractions of the exhibition hall, the midway and the race track, content to know that his stomach at least has found what it came to the fair to find.

There was W. Twitwell's eating house where are found his choice of lamb, beef or pork, with Irish and sweet potatoes and sweet corn every meal, with hot oyster stew for supper at the price of a dollar a day or fifty cents for single dinners.

If one found Twitwell's too full and didn't want to wait he could go to Lovejoy's eating house, established for twenty-two years, and wait just as long here. Anyway, be sure to find plenty of pork, beef or lamb together with pies, cake and doughnuts of established fame.

For thirty-five years the Ladies' Aid of the Congregational Church of Norway has welcomed through the doors of its eating house hosts of patrons who knew through personal experience the reputation of the ladies to spread the table with those baked beans, cold meats, cabbage salads, white and brown bread, apple, pumpkin, squash and mince pie and coffee. Dinner was the strong point here and sold for fifty cents a plate.

An oyster house is by all means a necessity at a fair after one has lived through the summer deprived of such oyster stews as are found at Ai Twitwell's Oyster House, and for those who cared not for oysters, Mr. Twitwell had prepared a special, Mr. Twitwell had prepared a special. For thirty years patrons have annually looked forward to fair and Twitwell's Oyster House.

People who try it once never leave the grounds without having a generous meal of baked beans, salads and pies with all of the fixins' prepared by the Ladies' Aid Society of the Deering Memorial Church of South Paris. Dinner with a guaranty of hot beans for fifty cents sent the hungry away well content with themselves and the world.

The Ladies' Social Union of the Universalist Church of South Paris furnished a baked bean dinner for thirty-five cents. This was the only booth putting out 35 cent dinners. The reason for the low price was the absence of old meats and pumpkin pies. However, one could find a good substantial dinner here consisting of the aforesaid baked beans, pickles, brown and white bread, pies, doughnuts, ice cream and coffee. How good one felt after the partaking of those beans which tasted nearly as good as those mother used to bake.

Pythian Sisters Remember Anniversary

Monday evening the members of Pennequewasse Lodge K. of P. and Lake Temple Pythian Sisters went to the home of Mr. and Mrs. Forest Thurston, on Crockett Ridge, and gave them a surprise, and celebrated their crystal wedding anniversary. Five auto loads took them by storm the early part of the evening, but the Thursons were equal to the occasion, and built a big blaze in the fireplace, making their visitors welcome.

Being invited to the home of Mr. and Mrs. Frank Cook inquired Mr. and Mrs. Thurston to show them around the house, and while they were absent the other members got busy and on their return found on the dining table a beautiful glass punch bowl, with glasses, a glass water set and a glass berry set. In his inimitable manner, Orrington Cummings presented the gifts to the "brother and sister" lodge members, and said they were all looking forward to the golden wedding anniversary, when they should expect to use the same punch bowl.

In behalf of his wife and himself Mr. Thurston very gracefully accepted the gifts, and cordially invited them all to come to the fiftieth celebration, as suggested by Mr. Cummings. Refreshments of ice cream, fancy cookies and crackers, as well as sorted chocolates, maple fudge, grapes, plums and bananas, were served. The remainder of the evening was passed in a social way.

The remains of Charles Morton, colored found on the fair grounds Sunday night is still at Leroy Spiller's undertaking rooms waiting for relatives to claim the remains.

BASE BALL

Percy H. Nevers had charge of the base ball arrangements as usual and placed two teams in the field. Wednesday forenoon a nine gathered from a wide territory under the name of Buckfield defeated West Paris in a loosely played game, the score being 11-1. Benson and Waterman were batters for the winners.

Apparently the defeated side had a day off and played far below their usual gait, piling up error which was largely responsible for their loss.

The nine was driven away Thursday forenoon and the Paris boys came back strong while not quite able to swing the game it was within speaking distance and slipped away in the last of the 12th inning when the Buckfield heavy string hiters marled out three runs on the same inning.

Five auto loads took them by storm the early part of the evening, but the Thursons were equal to the occasion, and built a big blaze in the fireplace, making their visitors welcome.

This image shows a blank, aged, cream-colored page, likely an endpaper or flyleaf from an old book. The paper has a slightly textured appearance with some minor discoloration and dark smudges or stains, particularly along the right edge and bottom. A small, faint rectangular mark is visible near the bottom left corner. The overall tone is warm and slightly yellowed, characteristic of old paper.

New Daylight Store Opened

The Frank H. Noyes Company have completed their Blue Store improvements and comfortably settled at the old stand made new and improved.

More room has been secured in the store by removing a partition and placing the chimney on the outside. Steel ceilings, wall cabinets, a hanger system for the display of suits and a new arrangement of the children's department are noticeable features. The walls, ceiling and display cabinets are finished with white enamel. This is in reality a daylight store even at night, for the lighting system has been planned to allow no dark corners. A room has been added with towels, soap and several conveniences that will be appreciated by autoists and out of town patrons.

The tailoring department has not been forgotten, this too has also been enlarged. A Hoffman pressing machine made by the United Hoffman Co. has been installed. It is gas heated and carries 72 pounds of steam pressure.

This outfit presses and dries garments by steam, cleans and removes dust with a team vacuum arrangement, pressing the goods quick and even. Earl Farnum has charge of this work and can go over from two to four suits an hour according to the material. This is the only improved steam presser between Berlin and Lewiston, so is a novelty about here.

New Post Office Officially Opened

Postmaster Frank E. DeCoster and his assistants, Mrs. Charles H. Akers, Philip Stone and Ellie Swan held open house in the new postoffice apartments Friday evening in the Beck block. All departments were open to public inspection and many called during the evening.

The office was officially opened for business Saturday morning with all members of the staff alert, making the acquaintance of their new home.

Norway can boast of one of the best offices in the State according to the testimony of G. H. Hadley of the Bourn, Hadley Co., Templeton, Mass., who delivered the furnishings. The partition is paneled oak with windows for parcel post, stamps and general delivery, money orders, registered letters and postal savings. The 330 metal combination boxes and 24 steel drawers with the slats for letters and papers are on the right as you enter.

Within the enclosure containing 1800 sq. ft. can be found everything convenient for the rapid handling of the big mail that reaches this office. Sacks are held on movable racks, separate tables and appliances for each branch of the work, a cancelling machine and many handy conveniences. The city carriers, W. A. Lewis and Paul Seavey and the R. F. D. men, John P. Judkins and Fred H. Perry have modern arrangements to facilitate their work.

Postmaster DeCoster is provided with a private office facing Main street, with oak furnishings and plate glass window. We are proud of our new office and certainly have the right to boom it a bit. It is all right.

L. M. Carroll State Fair President

At an exciting meeting of the Maine State Agricultural Society, Lawrence M. Carroll of the Carroll, Jellison Shoe Co., Norway, was elected president of that society, winning in almost a two to one vote over B. J. Libby of Oakland, who has been in the chair a number of years.

Mr. Carroll had in no wise jockeyed for the office, but his reputation as a "fellow who does things" has gone beyond the Norway boundaries and attracted the attention of men who are striving to make the Maine State fair worth while.

If the new president jumps into the harness with his customary vim, it is a ten to one bet his personality and energy will get every official under the wire immediately. Mr. Carroll's executive ability stands unquestioned, and the Norway friends feel confident he will not make it a swivel chair position, but a "take off your coat and jump into it" undertaking.

Bean was last seen early Sunday forenoon on Whitman street and beyond that nothing can be learned. His father, Chas. Bean of Fryeburg, was notified Monday and with a sheriff has been searching through this territory and surrounding country, but not a clue can be unearthed.

Fred Bean is a slim, light complexioned chap, gray eyes, light hair, about 5 ft., 8 inches tall and weighs about 135-140 pounds. The only special identification features are a stiff index finger on the right hand and a peculiar way of speaking rapidly. The morning of his disappearance he wore a brown mixed suit, green and white check necktie, gray cap, tan four button oxfords.

The young man has been troubled in the past with peculiar traits that lead his parents to believe that he has only wandered off to some back road farm and will return within a few days.

He had worked here only a week and no financial troubles would prompt the sudden leaving for the factory pay remained unclaimed.

Truman Won With Heavy Guns

Homer Truman, the Norway gamey wrestler, won over Soldier Katron of Fort Levett in Norway Opera House, Monday evening with two straight falls. Johnnie Aspinall did the same and cleaned up two falls from Prudence Bedard and Young Smokey Payne went a draw with Wild Bill Ledger, then polished him up for a decision at the second bout in the preliminary mill.

About 250 fans watched the game that was staged by Promoter Stairs and saw several good exhibitions of keen wrestling. In the preliminary the 20 minute draw between Payne and Ledger was a good show of bantam fighting. Both gamblers were new material, but worked out several interesting situations. Wild Bill started in and lived up to his name while Smokey Albert hugged the carpet with a loving friction making Ledger stop the tugging. A second bout was called for a decision and the game changed hands. Payne took the aggressive corner with both bantams playing like a pair of scrappy wild cats. Smokey caught Wild Bill for a down in less than 5 minutes. Frank Rollins refereed this mill.

Aspinall, the strong Swede, at 154 lbs. was too fast and acclimated for Bedard the "Steep Falls Champion," weighing 150 lbs. He has ring experience and confidence so was able to pass the good thing along in a surprising manner as Bedard lacked everything but grit. The Swede opened strong and played a "dig at it" game throughout the whole show, winning the first fall with a bar and half in 3 minutes, and the second with the same hold in about 5 minutes. Polquin of Berlin, N. H. refereed this battle.

In the big show there was considerable doing when Truman, weighing 159 lbs. and Soldier Katron, hardly 142 opened up their big guns. The entered the ropes for a battle with very little skirmish fire. Neck holds and side stepping were frequent with rapid fire, lively attacks and counter attacks quickly executed. For the first quarter of an hour there was plenty of no-man's land with the struggle about 50-50. Truman was a lively adversary who passed up top notch grenades that failed to explode, for he dodged into dug-outs so failed to get his when it looked like a clean-up for the "Sammie." The first line of trenches was taken from the soldier when he failed to break a scissors and body hold, time 21 minutes.

The second attack was made on the double kick. Neither side cared for gas, artillery or big gun fire, but opened up to win new positions like a C. A. C's. victory but the civilian came back strong at every charge, meeting the frontal attack at all points. The last trench was captured when after a clinch with both on the carpet and a break came Katron was thrown into a scissors that held fast for a down time 3 minutes. Polquin also refereed this bout.

Kid Dionne of Lewiston, through his manager, Mr. Smith, challenged any wrestler in the state at 155 pounds. Wilfred Polquin of Berlin, high weight champion of New Hampshire, offered to meet any claimant in New England at 140 pounds and stated that Kid Boldue of Salmon Falls, N. H., especially, should talk him out of this.

Both Dionne and Katron accepted the last challenge and arrangements are being made to stage the Polquin-Katron bout at Norway in about two weeks, provided the soldier is not removed in the meantime from the Portland forts. The Dionne match will not be put off until after the fall fairs, not far from Thanksgiving.

Of course Sergt. John Collins, Katron's manager, would have been much pleased to carry the "bacon" home this time, but both are game and take the defeat with a military spirit. They are popular with the sporting fans and will draw strong when the next attack is made.

Too Sick To Work

Many Women in this Condition Regain Health by Taking Lydia E. Pinkham's Vegetable Compound.

Convincing Proof of This Fact.

Ridgway, Penn. — "I suffered from female trouble with backache and pain in my side for over seven months so I could not do any of my work. I was treated by three different doctors and was getting discouraged when my sister-in-law told me how Lydia E. Pinkham's Vegetable Compound had helped her. I decided to try it, and it restored my health, so I now do all of my housework which is not light as I have a little boy three years old." — Mrs. O. M. RHINES, Ridgway, Penn.

Mrs. Lindsey Now Keeps House For Seven.

Tennille, Ga. — "I want to tell you how much I have benefited by Lydia E. Pinkham's Vegetable Compound. About eight years ago I got in such a low state of health I was unable to keep house for three in the family. I had dull, tired, dizzy feelings, cold feet and hands nearly all the time and could scarcely sleep at all. The doctor said I had a severe case of ulceration and without an operation I would always be an invalid, but I told him I wanted to wait awhile. Our druggist advised my husband to get Lydia E. Pinkham's Vegetable Compound and it has entirely cured me. Now I keep house for seven and work in the garden some, too. I am so thankful I got this medicine. I feel as though it saved my life and have recommended it to others and they have been benefited." — Mrs. W. E. LINDSEY, R. R. 3, Tennille, Ga.
